

COUNCIL FOR HOMEOPATHIC CERTIFICATION

ADVANCING THE HOMEOPATHY PROFESSION

Formed in 1991, the Council for Homeopathic Certification (CHC) certifies individuals who meet and maintain recognized professional standards and ethical competence in classical homeopathy.

CHC certification promotes greater legal and public recognition of homeopathy, directly benefiting the homeopathy profession and consumers.

CCH CREDENTIAL BENEFITS

Equates Homeopathy

NCCA validation of CCH credential expertise and standards equates homeopathy with other certified healthcare professions. NCCA is the accrediting body of the Institute for Credentialing Excellence. The CHC joins 350+ NCCA-accredited certifying boards.

Ensures Quality

NCCA's mission is to help ensure the health, welfare and safety of the public through accreditation. NCCA accreditation designates CHC-certified homeopaths as qualified practitioners, boosting both practitioner and client confidence.

Builds Knowledge

The CHC's established recertification process builds practitioner knowledge beyond the entry-level skills and knowledge tested by the CHC exam. Fulfilling annual recertification requirements adds value to the CCH credential and reinforces practitioner skillsets.

Connects Professionals

CCH-eligible benefits offered by homeopathy organizations and pharmacies plus professional liability insurance strengthens the professional homeopathy community. Practitioners enjoy expanded access to professional products and services.

CHC EXAM

Eligibility

- **500** homeopathy education hours*
- **500** homeopathy clinical training hours*
- **College-level** Anatomy & Physiology and Human Pathology courses

Specs

WE KNOW CERTIFICATION

The CHC knows certification and the importance of setting standards and ensuring competence.

We help homeopathic practitioners demonstrate their knowledge, skills and experience with a recognized third-party validated credential.

The CHC Exam application process is fast and simple. Contact us for more information.
