Elaine La Joie is a shaman and life coach who works with clients suffering from deep trauma. She also has a background in applied physics and biomedical engineering.

Elaine has an BS in Physics from San Jose State University, and MS in Applied Physics from Oregon Graduate Institute, and is a Certified Life Coach. She studied with the Four Winds and later with Marv and Shanon Harwood of Kimmapii School of Shamanism.

Elaine has been fascinated by homeopathy's effectiveness since she was introduced to it almost 20 years ago. Besides helping her family overcome several healthy issues, she noted that her clients who were on a constitutional remedy while doing shamanic work with her moved much more quickly through their healing process.
