

**Mike Swain, CCH
Chairperson of the Board**

Mike Swain, CCH spent his life working in Machining and IT, only dabbling in natural medicines with limited success. When a colleague used Homeopathy to cure his family and friends during the 2014 flu season, Mike was immediately curious and sought any information he could find about Homeopathy. After six months of intense personal study, he was able to clear a stubborn foot problem that had lasted for well over a year and that doctors could not help. And it only took two weeks!

Soon after that, Mike enrolled in George Vithoulkas' International Academy of Classical Homeopathy (IACH) where he studied classical homeopathy. Since graduating from IACH and receiving his CHC certification, he has become fascinated with all aspects of Homeopathy - its medicines, theology, science and history. Mike is confident that if people were to know the truth about homeopathy and experience its healing powers, then homeopathy would finally become a mainstream medicine. Mike hopes that we are at a point in history where that is happening, and he is excited to have the chance to be a part of it.
